

Report

of *Barbara M. Guider*

PARENT OR GUARDIAN:

Grades for good and passing work are 70 and above. Red grades indicate failure.

The checks under TRAITS and HABITS may need your attention.

Kindly assist us in securing improvements needed.

Poor grades may be caused by too many outside interests.

Social diversions during the week are causes of low grades.

Absence from school kills interest in a pupil's studies.

Seventh and eighth grade pupils should do home study if requested by the teacher.

Neglect of home study in these grades is a frequent cause of failure.

Decided improvement in grades from very low to high sometimes secures promotion even with a low average.

The question always is, "What can and will a pupil do?" That governs the placing of pupils.

Grading in itself is an incident in school work. Work counts.

There should be an increase each month in weight.

Decreasing weight or continued underweight should call for a physician's attention.

Respectfully,

F. M. SHELTON,
Superintendent.

Public Schools

Name Barbara M. Guder

Grade 5 B

100 is perfect; 85 is good; 70 barely passing;
below 70 failure.
